PEGALINK UNIVERSAL ADHESIVE PRIMER

Available in:
1 litre
2.5 litre
single component

INSTRUCTIONS FOR USE:

Smooth surfaces normally do not require sanding. Cleaning and/or degreasing will usually suffice. Apply undiluted Pegalink with a brush, roller or airless.

You only need water to clean your equipment. Please consult the technical specifications.

Pegalink: as indispensable as paint and brush. Pegalink from Mathys is your universal primer for use on all smooth and non-adherent surfaces indoors and out. Be sure to always have Pegalink on hand. You'll never have to search for the right primer again!

SUITABLE FOR MOST MATERIALS:

Pegalink ensures excellent adhesion to galvanized steel, aluminium, steel, Inox (stainless steel), copper, zinc, glass, tin, hard PVC, ceramic tiles, polycarbonate, powder coatings, wood, etc.

USER AND ENVIRONMENT FRIENDLY:

Pegalink is available in 4 tint bases and white and is sold in 1 and 2.5 liter containers. The adhesive primer is waterborne, which means it's user-friendly as well as environmentally sound. Pegalink's amazingly smooth consistency makes it easy to apply. Professional painters know that good preparation is the key to guaranteeing flawless results. The product is also UV-resistant.

Excellent adhesion to zinc

Smooth surfaces

Balcony rails

Universal adhesive primer for tiles, PVC, aluminium, steel, copper...
